## ROCK TABLE

Designed by Jean Marie Massaud

The iconic table, with its fluid and elegant silhouette, completely reveals the nature of what it represents: “a round table” that seems to float above a solid, inorganic base. A mixture of natural and industrial materials that are blended to create a new product with a smooth design, following the same philosophy of Flow collection.

A refined solid object, light and stable, radical as well as sensual. Rock Table unique style, based on simplified shapes, is combined with innovative production systems and this makes MDF Italia tables suitable not only to modern living rooms, but also to lounge designs and working contexts, such as offices, meeting rooms, conference rooms with a strong identity.

To respond to market demands and meet the ever-increasing need for open spaces, the classic round versions of the Rock Table have been joined by a new oval version, characterised by two concrete bases supporting the table top. A spacious table designed for conviviality: the 2.5-metre and 3-metre lengths can accommodate up to 12 people.

### DIMENSIONS AND FINISHES

- . tabletop in size 80/100 cm: matt lacquered, cement and stone chip cement;
- . tabletop in size 120/140 cm: matt lacquered, cement, stone chip cement and glass;
- . tabletop in size 250/300 cm: cement and stone chip cement.

## BASES

The tables are equipped with three types of bases:

- . narrow (with outer dimension of 34 cm at floor level) with 80 and 100 cm large tabletops;
- . wide (with outer dimension of 50 cm at floor level) with 120 and 140 cm large tabletops;
- . double (with outer dimension of 50 cm at floor level) with oval tops of 250 and 300 cm large.

The bases are made of UHPFRC (ultra-high performance fibre-reinforced cement) with cutting-edge technical/structural properties.

A fundamental characteristic of the components is mass colouration. The finish and colour of the table bases is the result of a skilled mixture of sand and natural elements. Together with the slow maturation and drying given to each piece, this allows countless subtle shades to be obtained.

## TABLETOP

LAQUERED. Medium density wood fibre panel, 25 mm thick, machined on the edge, and painted matt white or matt graphite grey. Tops: 80, 100, 120, 140 cm.

CEMENT. In white or anthracite UHPFRC cement (ultra high performance, fibre reinforced cement), with high technical / structural characteristics. Tops: 80, 100, 120, 140, 250 e 300 cm.

STONE CHIP CEMENT. In UHPFRC (ultra high performance, fibre reinforced cement), with high technical / structural characteristics, coloured in mass using natural oxides, enhanced with a stone chip surface made up of Alpine rocks and stones (white and green stone chip top), or stone chip made up of stones from Tuscany (terracotta top). Tops: 80, 100, 120, 140, 250 e 300 cm.

GLASS. Smoked tempered glass, 12 mm thick (tops: 120, 140 cm).

## MONOCHROME COMBINATIONS

WHITE VERSION. Base in natural cement, matt white tube and flange, lacquered white, white or white stone chip cement top.

ANTHRACITE VERSION. Base in anthracite cement, matt anthracite tube and flange, lacquered anthracite grey, anthracite cement, or smoked glass top.

ORANGE VERSION. Base in terracotta cement, matt orange tube and flange, terracotta stone chip cement top.

GREEN VERSION. Base in green cement, matt green tube and flange, green stone chip cement top.

## OUTDOOR USE

The table with cement top and stone chip cement top are also suitable for outdoor.

### OUTDOOR COVERING TARPAULIN

Protective tarpaulin specifically for outdoor products, waterproof, made of 100% polyester, outside with acrylic coating, inside with acrylic resin coating.

Its characteristics are emphasised by its fully fungicidal Teflon finish. Each tarpaulin comes with a closable slip cover, so that it can be folded and kept correctly when not in use.
